MYOPIA MANAGEMENT SOLUTIONS

IS YOUR CHILD AT RISK OF HIGH MYOPIA?

Measure their eyeball length to find out.

WE'RE HERE TO HELP

Not sure where to start?

Book a **free 15-minute consultation**
with our optometrist to discuss your
child's concerns.

MYOPIA RISK PROGRESSION ASSESSMENT TOOL

Evaluate your child's risk based on family
history, reading habits and more.

Start your child's myopia management journey
with a detailed myopia management screening.

eyeviser.com/myopia-management

Did you know an
elongated eyeball
without intervention can
lead to serious eye
diseases and vision loss?

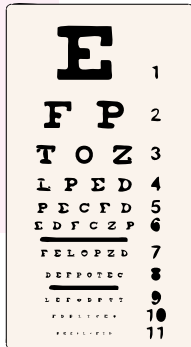

Myopia Management Screening includes subjective refraction, axial length measurement, risk assessment of kids myopia progression and consultation on myopia management solutions

EYECARE PROFESSIONALS

OPTOMETRISTS

- Evaluate your vision and prescribe corrective lenses/contact lenses
- Can diagnose and manage simple issues, will refer you to an ophthalmologist if needed

OPHTHALMOLOGISTS

- Medical doctor
- Provide full eye care, such as performing complete eye exams, diagnosing and treating complex eye diseases, and performing eye surgery

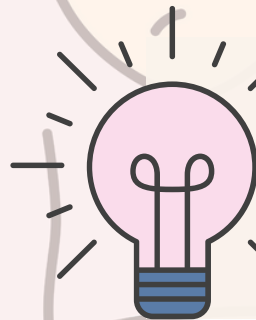

EYECARE TIPS

The recommended viewing distance for your **mobile phone, laptop and desktop** is **40, 50 and 70 cm** respectively.

When engaging in near work, take a break **every 20 minutes** and look at something **20ft (~6m) away** for **20 seconds**.

Using **natural daylight or desk lamps** instead of fluorescent lighting can help reduce eyestrain
