

Adventure Holiday with World's #1 Eco-Resort From 25% OFF - Min. 2 Pax

In celebration of Teacher's Day, a special promotion to MOE staff only!

The founders & owners of Loola are two teachers, Dr Marc van Loo and Isabelle Lacoste. They came to Singapore in 1991, Marc on a scholarship to do a PhD in cosmology, and Isabelle to teach French.

Both have taught extensively to all age groups, at local and international schools as well as local and foreign universities

The perfect family destination

Crowned "The Best Family Getaway" by TripAdvisor, Loola offers more family-friendly exciting adventure activities than any other resort in Asia – and we are also the world's leading Eco resort!

Bond with your loved ones through adventure activities, such as kayaking on scenic shallow safe waters, climbing up a coconut tree and plucking your own coconut, zipping down the flying fox into our pool, crab hunting at night, and many more.

And did we mention that child-care at Loola is free all day long??

For teachers, Loola is the fantastic opportunity to teach your children about Eco and Sustainability in a fun way: watch our solar power in action, cook plant-based food together, plant mangrove trees at night (spooky trees!) to make your trip carbon-neutral, help build a Safe Water Garden system (life-long sanitation system) for a local family, just to name a few!

Join us at Loola, and experience something really different!
